

## Fluid Milk Substitutes (Non-Dairy)

## **Definition and Rules**

**Definition:** A Fluid Milk Substitute is defined as a non-dairy beverage that is nutritionally equivalent to the level of nutrients found in one cup of cow's milk.

Regulations: Only Sponsors who participate in the National School Lunch Program (NSLP), the Child and Adult Food Program (CACFP) and the Special Milk Program (SMP) may at their discretion offer their participants a fluid milk substitute. Also, School Food Authorities who participate in the Summer Food Service Program and follow the NSLP meal patterns may offer a fluid milk substitute.

**Requests:** Parents, guardians, adult participants or the caregivers of an adult participant or a medical authority must provide a written and signed request for a non-dairy fluid milk substitute which includes the medical or other special dietary reason for the substitution. Any reasonable request can be accepted (e.g. milk allergy, vegan diet or religious, cultural or ethical reasons). A Special Diet Statement is not required.

Compare the amounts of nutrients in your non-dairy beverage to the levels of nutrients found in 1 cup of cow's milk (listed in the table below). Your product must meet or exceed these levels of nutrients for it to be considered an "allowable" Fluid Milk Substitute.

## Milk Substitute Nutrition Standards

| Nutrients in<br>1 cup of<br>Cow's Milk | Requirement per<br>cup (8 fluid<br>ounces) | % of RDI |
|--|--|----------|
| Protein                                | 8 grams                                    | 16%      |
| Calcium                                | 276 mg                                     | 28%      |
| Vitamin A                              | 500 IU                                     | 10%      |
| Vitamin D                              | 100 IU                                     | 25%      |
| Magnesium                              | 24 mg                                      | 6%       |
| Phosphorus                             | 222 mg                                     | 23%      |
| Potassium                              | 349 mg                                     | 10%      |
| Riboflavin                             | .44 mg                                     | 26%      |
| Vitamin B12                            | 1.1 mcg                                    | 19%      |
