5.a. Review & Comment Statement from MDE Commissioner

\*\*\*\*\*

**Background Information:**

We received a favorable response from the Commissioner. In addition to publishing the letter in the newspaper, which appeared in the September 11, 2024 edition of the Northern Light Region, the district must also hold a discussion of the commissioner’s review and comment at a public meeting prior to the election in November. Discussion should summarize the commissioner’s letter and the projects proposed to be funded. The board chair should then ask for questions from the Board or the public

**Description of Proposed School Construction Project**

Lake of the Woods School District, Independent School District #0390-01 is proposing a three question referendum on November 5, 2024. The first ballot question would authorize an annual capital projects levy of \$400,000 for a ten year period. The second ballot question would authorize \$5 million in bonding authority to finance facility improvements. The third ballot question will seek an increase in the District's operating referendum levy.

If the proposed capital projects levy (ballot question #1) is approved by voters, the district would annually levy \$400,000, beginning with the Payable 2025 levy. The annual levy amount in the nine subsequent years would be computed by multiplying 5.05% times the preceding year's Net Tax Capacity (NTC) and would be authorized for annual certification by the school board. The estimated total cost of the projects to be funded over the ten year period is \$4 million. Proposed projects include: deferred maintenance projects, school bus purchases, technology, software and curriculum/testing materials.

The second ballot question would authorize \$5 million in bonding authority to finance facility improvements. Proposed projects include: football field/track upgrades, roof replacement, deferred maintenance projects and site improvements. The proposed projects would be scheduled for completion in calendar year 2025. Cost estimates by project type are as follows:

<b>Project Cost Estimates</b>	
Track Repair/Resurface	680,000
Football Field – turf/Upgrades	347,000
Roof Replacement	610,000
Building Envelope Upgrades	843,000
Flooring Replacement	189,000
Site Improvements	604,000
Sidewalk Replacement	506,000
Playground Equipment	120,000
Contingencies	530,020
Fees, Permits & Testing	470,980
Bond Issuance	148,515
	<b>5,048,515</b>

The district is projecting a reduction in total student enrollment from 458 in the 2023-24 school year to 425 in the 2028-29 school year. The district does not currently field a varsity-level football team. However, junior high school and junior varsity games would be played on the improved football field. The district also expects to field a varsity football team by the 2026-2027 school year.

The district has supplied cost estimates to operate and staff the additional building space, and believes existing revenues would be sufficient to fund any operational cost increases associated with the facility and site improvements. The proposed projects appear to be in the long-term interest of the school district.

If the bond referendum is successful and bonds are sold, the debt service on the bonds will be eligible for debt service equalization under Minnesota Statutes, section 123B.53, subdivision 3, if the bond schedule is approved. The amount of debt service equalization aid, if any, the district receives is determined annually and is dependent upon property wealth, student population, and other statutory requirements.

Review and Comment Statement

Based on the department's analysis of the school district's required documentation and other pertinent information from sources of the Minnesota Department of Education, the Commissioner of Education provides a positive review and comment.

Additional Information is Available

Persons desiring additional information regarding this proposal should contact the school district superintendent's office.

## MNTrust MONTHLY STATEMENT DISCLAIMER

Securities and municipal advisory brokerage services (investments purchased with proceeds from a municipal securities issuance), and investments cleared through our clearing firm, Pershing LLC, are offered through PMA Securities, LLC, a broker-dealer and municipal advisor registered with the SEC and MSRB, and a member of FINRA and SIPC. All other products and brokerage services are generally provided by PMA Financial Network, LLC. Thus, certificates of deposit ("CD"), savings deposit accounts ("SDA") and commercial paper ("CP") may be executed through either PMA entity, as applicable, depending on whether the investment was purchased with proceeds derived from the issuance of municipal securities. PMA Securities, LLC and PMA Financial Network, LLC are operated under common ownership and are affiliated with PMA Asset Management, LLC.

### Fixed Rate Investment Activity

This section shows all of the fixed term investments purchased and sold, maturities, interest received, and activity. This will include all CD, SDA, CP, securities and money market funds purchased through PMA Financial Network, LLC or PMA Securities, LLC as applicable. It also shows the approximate market value of each security and DTC CD whose price is obtained from an independent source believed to be reliable. However, PMA cannot guarantee their accuracy. This data is provided for informational purposes only. Listed values should not be interpreted as an offer to buy or sell at a specific price. Other CDs and CP are listed at their original cost. Redemption of a CD prior to maturity may result in early withdrawal penalties. Market values are based on the last day of the month for which this report date range is ending. If the run date of this report is prior to the end of the current month, the market values are listed as equivalent to the cost values.

### MNTrust Activity

This section shows all of the client's transactions in MNTrust. The Average Rate represents the average net interest rate over the previous month which is then annualized. Income Summary represents the interest earned for the Month and Fiscal Year to Date. Information regarding the MNTrust investment objectives, risks, charges and expenses can be found in the MNTrust Information Statement, which can be obtained at <http://investmtrust.org/> or by calling PMA at the phone number listed. An investment in any series of MNTrust is not a deposit of any bank, and is neither insured nor guaranteed by the Federal Deposit Insurance Corporation, the U.S. Government, any state governmental agency or MNTrust. Investors could lose money investing in any series of MNTrust, and there can be no assurance that any series of MNTrust that seeks to maintain a stable net asset value of \$1.00 per share will be able to do so.

### Money Market

The Rate shown for the liquid money market portfolio, called Investment Shares represents the average net interest rate over the previous month which is then annualized. Information regarding the investment objectives, risks, charges and expenses can be obtained by calling PMA at the phone numbers listed. The performance data featured represents past performance, which is no guarantee of future results. Investment returns will fluctuate. Current performance may be higher or lower than the performance data quoted. Please call PMA for the most recent performance figures.

### Additional Disclosures

All funds, and/or securities are located and safe kept in an account under the client's name at their custodial bank. Any non-DTC CD listed is located in the client's name at the respective bank. Any money market fund shares are held directly with the money market fund. It is recommended that any oral communications be re-confirmed in writing to further protect your rights, including rights under the Securities Investor Protection Act.

### Debt Securities

Some debt securities are subject to redemption prior to maturity. In the event of a partial or whole call of a security, the securities call will be automatically selected on a random basis as is customary in the securities industry. The probability that your securities will be selected is proportional to the amount of your holdings relative to the total holdings. Redemption prior to maturity could affect the yield represented. Additional information is available upon request.

A financial statement of PMA Securities, LLC is available for inspection at its office or a copy will be mailed to you upon written request.

**Important Disclosures**

**Important Disclosures**

This statement is for general information purposes only and is not intended to provide specific advice or recommendations. PFM Asset Management LLC ("PFMAM") is an investment adviser registered with the U.S. Securities and Exchange Commission and a subsidiary of U.S. Bancorp Asset Management, Inc. ("USBAM"). USBAM is a subsidiary of U.S. Bank National Association ("U.S. Bank"). U.S. Bank is a separate entity and subsidiary of U.S. Bancorp. U.S. Bank is not responsible for and does not guarantee the products, services or performance of PFMAM. PFMAM maintains a written disclosure statement of our background and business experience. If you would like to receive a copy of our current disclosure statement, please contact Service Operations at the address below.

**Proxy Voting** PFMAM does not normally receive proxies to vote on behalf of its clients. However, it does on occasion receive consent requests. In the event a consent request is received the portfolio manager contacts the client and then proceeds according to their instructions. PFMAM's Proxy Voting Policy is available upon request by contacting Service Operations at the address below.

**Questions About an Account** PFMAM's monthly statement is intended to detail our investment advisory activity as well as the activity of any accounts held by clients in pools that are managed by PFMAM. The custodian bank maintains the control of assets and executes (i.e., settles) all investment transactions. The custodian statement is the official record of security and cash holdings and transactions. PFMAM recognizes that clients may use these reports to facilitate record keeping and that the custodian bank statement and the PFMAM statement should be reconciled and differences resolved. Many custodians use a settlement date basis which may result in the need to reconcile due to a timing difference.

**Account Control** PFMAM does not have the authority to withdraw funds from or deposit funds to the custodian outside the scope of services provided by PFMAM. Our clients retain responsibility for their internal accounting policies; implementing and enforcing internal controls and generating ledger entries or otherwise recording transactions.

**Market Value** Generally, PFMAM's market prices are derived from closing bid prices as of the last business day of the month as supplied by ICE Data Services. There may be differences in the values shown for investments due to accrued but uncollected income and the use of differing valuation sources and methods. Non-negotiable FDIC-insured bank certificates of deposit are priced at par. Although PFMAM believes the prices to be reliable, the values of the securities may not represent the prices at which the securities could have been bought or sold. Explanation of the valuation methods for a registered investment company or local government investment program is contained in the appropriate fund offering documentation or information statement.

**Amortized Cost** The original cost of the principal of the security is adjusted for the amount of the periodic reduction of any discount or premium from the purchase date until the date of the report. Discount or premium with respect to short term securities (those with less than one year to maturity at time of issuance) is amortized on a straightline basis. Such discount or premium with respect to longer term securities is amortized using the constant yield basis.

**Tax Reporting** Cost data and realized gains / losses are provided for informational purposes only. Please review for accuracy and consult your tax advisor to determine the tax consequences of your security transactions. PFMAM does not report such information to the IRS or other taxing authorities and is not responsible for the accuracy of such information that may be required to be reported to federal, state or other taxing authorities.

**Financial Situation** In order to better serve you, PFMAM should be promptly notified of any material change in your investment objective or financial situation.

**Callable Securities** Securities subject to redemption prior to maturity may be redeemed in whole or in part before maturity, which could affect the yield represented.

**Portfolio** The securities in this portfolio, including shares of mutual funds, are not guaranteed or otherwise protected by PFMAM, the FDIC (except for certain non-negotiable certificates of deposit) or any government agency. Investment in securities involves risks, including the possible loss of the amount invested. Actual settlement values, accrued interest, and amortized cost amounts may vary for securities subject to an adjustable interest rate or subject to principal paydowns. Any changes to the values shown may be reflected within the next monthly statement's beginning values.

**Rating** Information provided for ratings is based upon a good faith inquiry of selected sources, but its accuracy and completeness cannot be guaranteed.

Shares of some local government investment programs and TERM funds are marketed through representatives of PFMAM's affiliate, PFM Fund Distributors, Inc. which is registered with the SEC as a broker/dealer and is a member of the Financial Industry Regulatory Authority ("FINRA") and the Municipal Securities Rulemaking Board ("MSRB"). You may reach the FINRA by calling the FINRA Hotline at 1-800-289-9999 or at the FINRA website address <https://www.finra.org/investors/investor-contacts>. A brochure describing the FINRA Regulation Public Disclosure Program is also available from FINRA upon request.

**Key Terms and Definitions**

**Dividends** on local government investment program funds consist of interest earned, plus any discount ratably amortized to the date of maturity, plus all realized gains and losses on the sale of securities prior to maturity, less ratably amortization of any premium and all accrued expenses to the fund. Dividends are accrued daily and may be paid either monthly or quarterly. The monthly earnings on this statement represent the estimated dividend accrued for the month for any program that distributes earnings on a quarterly basis. There is no guarantee that the estimated amount will be paid on the actual distribution date.

**Current Yield** is the net change, exclusive of capital changes and income other than investment income, in the value of a hypothetical fund account with a balance of one share over the seven-day base period including the statement date, expressed as a percentage of the value of one share (normally \$1.00 per share) at the beginning of the seven-day period. This resulting net change in account value is then annualized by multiplying it by 365 and dividing the result by 7. The yields quoted should not be considered a representation of the yield of the fund in the future, since the yield is not fixed.

**Average maturity** represents the average maturity of all securities and investments of a portfolio, determined by multiplying the par or principal value of each security or investment by its maturity (days or years), summing the products, and dividing the sum by the total principal value of the portfolio. The stated maturity date of mortgage backed or callable securities are used in this statement. However the actual maturity of these securities could vary depending on the level or prepayments on the underlying mortgages or whether a callable security has or is still able to be called.

**Monthly distribution yield** represents the net change in the value of one share (normally \$1.00 per share) resulting from all dividends declared during the month by a fund expressed as a percentage of the value of one share at the beginning of the month. This resulting net change is then annualized by multiplying it by 365 and dividing it by the number of calendar days in the month.

**YTM at Cost** The yield to maturity at cost is the expected rate of return, based on the original cost, the annual interest receipts, maturity value and the time period from purchase date to maturity, stated as a percentage, on an annualized basis.

**YTM at Market** The yield to maturity at market is the rate of return, based on the current market value, the annual interest receipts, maturity value and the time period remaining until maturity, stated as a percentage, on an annualized basis.

**Managed Account** A portfolio of investments managed discretely by PFMAM according to the client's specific investment policy and requirements. The investments are directly owned by the client and held by the client's custodian.

**Unsettled Trade** A trade which has been executed however the final consummation of the security transaction and payment has not yet taken place.

In August 2024, PFMAM converted its portfolio accounting system from FIS Investment Accounting Manager to SS&C PORTIA. The new system has recalculated the amortized cost and yield to maturity at cost of each security, based upon original cost and settlement date. Some securities, including some factored securities and previously exchanged securities, are now on a modified amortization schedule as compared with that of the past. Where transfers have occurred between your portfolios we have returned their settlement dates to the settlement dates of the original purchases in order to minimize any impact to their amortization schedules.

Please review the detail pages of this statement carefully. If you think your statement is wrong, missing account information, or if you need more information about a transaction, please contact PFMAM within 60 days of receipt. If you have other concerns or questions regarding your account, or to request an updated copy of PFMAM's current disclosure statement, please contact a member of your client management team at PFMAM Service Operations at the address below.

Lake of the Woods School

Dear Jeff Nelson,

I am writing to inform you of my resignation from my position as Paraprofessional at Lake of the Woods School. My last day will be on Tuesday September 24th.2024.

I am grateful for the opportunities for growth and experience I've gained during my time here.I have loved every job I have had at Lake of the Woods School..I appreciate being rehired in August. During the time I was released I had applied for other jobs..A new opportunity has arisen that aligns with my long term goals. This decision has been incredibly difficult, as I have truly valued my time at LOW and my wonderful co-workers.

I understand the disruption my departure may cause, and I apologize for any inconvenience.

Sincerely,  
Kris Berthiaume

7.c.iii. Pool Attendant Salary Increase

\*\*\*\*\*

**Background Information:**

We currently have a shortage of adult lifeguards and have come to rely on an adult supervisor. The Adult Supervisor position averages eight (8) hours per week and has been instrumental in allowing the district to maintain open pool hours when there are only student lifeguards available. This position does require training in emergency response. Currently the district pays \$15.00/hour for lifeguards and \$10.00/hour for the pool supervisors.

The administration is proposing to increase the adult supervisor salary to \$12.50/hour.

Below is a quick breakdown of the hours from January-July 2024 and what the price difference would be with the proposed increase:

	Average/w eek	Total Hours	Rate	Total paid	Change to Budget
Jan-July 2024	7.82	195.5	\$ 10.00	\$1,955.00	
Proposed - 10hrs/week for 20 weeks (rest of 2024)	10	200	\$ 12.50	\$2,500.00	increase of \$545.00
					minus cost savings of Saturday shifts (200.00)
***Cost savings for Julie to cover Saturdays vs a Lifeguard @ \$15/hr	4	80	\$ 2.50	\$200.00	<b>Total budget increase of \$345.00</b>

**Background Information:**

Our current contract with School Management Services (SMS) expires on September 30th, 2024. The current yearly rate is \$97,602. The proposed contract from SMS is for 3 years and does provide for some significant cost savings for the district over the duration of the contract. Please see below:

\$12,602 less than current rate

\$8,352 less than current rate

7.f. Approval of engagement proposal from Kraus Anderson

\*\*\*\*\*

**Background Information:**

After discussions with several area Superintendents, I am recommending that we move forward with the engagement proposal from Kraus Anderson . Feedback I received stressed the importance of involving a construction manager early in the process. Both superintendents spoke positively regarding working with Kraus Anders and their staff. They held weekly meetings on-site, closely monitored and kept track to ensure the projects stayed on budget. When there were issues they presented recommendations, but also were responsive to the feedback from administration and the board.
